This event is kindly sponsored by

## Leigh Day

Our personal injury and clinical negligence teams are renowned for handling some of the largest and most complex cases in the UK. We are top-ranked by the two foremost legal directories, Chambers & Partners and the Legal 500.

We are experts in the field of brain injury, whether through major trauma caused by road traffic, work place or public accidents, as well as through injury caused by medical negligence.

We are proud to be a corporate partner of UKABIF, supporting the important work that they are undertaking to continue to raise awareness and help better understand Acquired Brain Injury.

Cynet Health Care's Neuropsychiatric care and treatment facilities offer support to men and women affected by acquired brain injuries. They are a safe and secure place to aid recovery as well as offering those diagnosed with a progressive neurological disease, like Huntington's Disease, a caring and longer placement to support and help manage the progression of their symptoms. Their person-centred and flexible model aims to reduce risk, maximise independence, improve quality of life and where possible, help those affected to fully recover.

They offer 7 specialist hospitals and a residential service located in the North East, Yorkshire and Humber, South West and the Midlands. Their dedicated clinical teams provide interdisciplinary input including occupational therapy, psychiatry, physiotherapy, nursing (RGN, RMN, RNLD) and speech and language therapy.

Neuro ProActive is an online and app based platform for neurological rehabilitation and the management of long term neurological conditions. Built to medical device standards, the platform utilises end to end encrypted messaging, video calling and cloud storage to allow six AHP disciplines to deliver multi-disciplinary, patient centred therapy. NHS Digital compliant, Neuro ProActive will be adopted by at least 15 NHS Trusts throughout the UK.

Patients can appoint up to three 'patient representatives' for free enabling local or remote support. Neuro ProActive can link to various hospital and patient record systems. Suitable for both NHS AHPs and those in Private Practice, Neuro ProActive puts patients in charge of their rehabilitation through it's intuitive user interface.

Three years in development and in consultation with hundreds of AHPs, family members and patients, Neuro ProActive can accommodate both adult and paediatric care.

Irwin Mitchell's reputation for helping clients & their families with a wide range of personal legal issues is second to none. Our highly specialised team combines powerful legal knowledge & experience with care & consideration to ensure that our clients receive the best possible support & guidance not only with the immediate matter in hand, but for life. Our leading lawyers have considerable expertise working on behalf of brain injured clients. We understand the impact that a brain injury can have on our clients and their families. Our brain injury solicitors have helped thousands of people claim compensation, helping to get the best treatment, care and support from brain injury case managers, rehabilitation providers and therapists. We also have a nationally recognised Court of Protection team giving our clients and their families confidence that their finances are protected now and for the long term. The team work with our clients and their families to effectively manage their finances and affairs ensuring they cannot be exploited and denied what is rightfully theirs.

Expert Hand. Human Touch
